

# Family Learning

## Discover Coding

A **FREE** fun course for parents/carers.

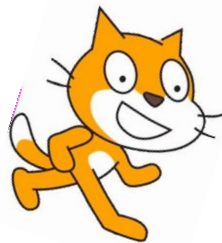

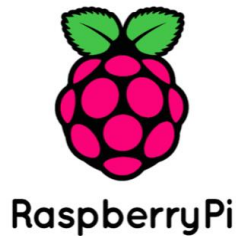

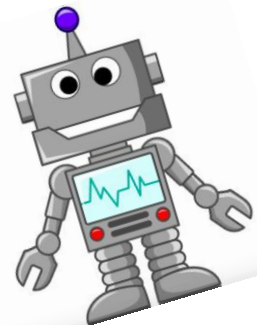

Come along to have an experience of computer coding.

At **Porter Croft Primary Academy**  
**Wednesday 7<sup>th</sup> October 2015**  
**9.15am**

The new curriculum teaches children computer science, information technology and digital literacy: teaching them how to code, and how to create their own programs; not just how to work a computer, but how a computer works and how to make it work for you.

Would you like to have a go at this too and have the opportunity to practice in a friendly environment with like-minded people?

### Description of the course

On this 10 week course you will:

- Learn how to use a 'Raspberry Pi' computer
- Create and send an interactive greetings card
- Apply your skills to create a computer game

You will have the opportunity to get to know other parents and have plenty of fun along the way!

If you are interested, please complete the slip below and hand it in to the school office.

-----  
**Please return this slip to **the office**.**

I will be attending the **Discover Coding** course

Name: \_\_\_\_\_

Tel: \_\_\_\_\_

Child's name and class: \_\_\_\_\_

I will need a childcare place
