

Literacy

We will be covering a variety of different genres over the half term for example:

- Diary writing
- Book study
- Reading comprehension

Art

Paper Mache Greek Vases

We will be learning how to use paper mache to create a structure for a vase. We will also use inspiration from Greek art to decorate it using paints.

Science and Technological Understanding

Microorganisms

We will be exploring:

- The different types of microorganisms
- How they can be harmful and helpful
- The role of microorganisms in disease

ANCIENT GREECE

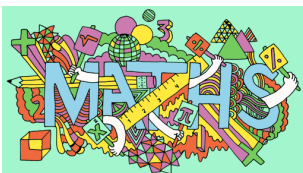

Autumn 1

Maths

We will be focusing on:

- The 4 operations (focusing on specific methods and speed of calculation)
- Fractions (addition, subtraction and multiplication of fractions)
- Rounding numbers
- Estimation
- Negative numbers
- Factors/multiples/prime numbers

Topic - Ancient Greece

We will be answering these questions:

- Who were the Ancient Greeks?
- What were they famous for?
- What was home life like for Ancient Greeks?
- What was it like to be a child at this time?
- What battles did the Ancient Greeks have?
- Who were the Gods?

Health and Well-being

Emotions

In circle time, we will be discussing:

- Changes in our lives and how these impact our emotions
- How to reflect on and celebrate our achievements and the importance of goals and aspirations
- The nature and consequences of discrimination, teasing, bullying and aggressive behaviours

RE

Sikhism

We will be learning about a Sikh's place of worship, the festivals that they celebrate and their traditions (5 K's). We will also be comparing this to our own and other religions.
